Enduvo Awarded Multiple 2019 US Business News Technology Elite Awards

Company's ground breaking technology and momentum recognized by for its achievements and value.

November 11, 2019 – Enduvo, the leading no-code, immersive content authoring and delivery platform for industrial manufacturing, government, healthcare and government organizations announced today it the best AR/VR content authoring platform, most innovative training software company and leading facilitator of immersive learning experiences according the US Business News.

“AR/VR technologies are proven to enhance information retention, and learner engagement and retention. However, until Enduvo, this technology has been out of reach to most organization given expense and lack of technical skills, said Joan Spindel, Chief Marketing Officer at Enduvo. “We our platform, everyone can realize the value of AR/VR for training and collaboration We make it so easy to create content than anyone can build an immersive experience in less than an hour. With Enduvo all organization can now cost effectively enhance the engagement and productivity of their teams.”

US Business News' signature [awards programs](#) “showcase the best of the best from across the corporate world.”

About Enduvo: Enduvo gives organizations a better, more cost-effective way to teach, learn, and collaborate. Our solution is the only no-code, augmented and virtual reality content authoring and delivery platform that enables people to quickly create and share visually stunning, immersive and interactive learning experiences. With just a few clicks, anyone can produce lessons using nothing more than their voice, gestures and digital files (3D models, video clips, image files). Completed lessons are published on the Enduvo platform allowing people to learn at their convenience. People feel as if they are receiving one-on-one instruction from an expert. Organizations that rely on 3D objects, complex procedures, or multi-step processes use Enduvo to decrease content development costs by 60%, reduce content delivery time by 70%, and increase learner confidence by an average of 95%. To experience Enduvo and explore how you can use it for your organization, visit www.enduvo.com.
